

# Registered Apprenticeship Program

## Why become a Registered Apprentice?

Registered Apprenticeships offer individuals the opportunity to receive a salary while gaining on-the-job experience and gaining technical instruction and support in the classroom. As an apprentice you will not just be training for a job, you will be establishing a robust career pathway for yourself. CHW Certificate holders or students currently enrolled at an accredited Minnesota college or University in a Community Health Worker Certificate Program are eligible to become an apprentice at a Registered Apprenticeship Site.

## Benefits of Being A Registered Apprentice

**Apprenticeship is a nationally recognized accreditation**

**Earn on the job training while getting your certificate**

**Improve your job security**

**Receive mentorship throughout the apprenticeship**

**Be connected with other CHW Apprentices in a cohort setting**
