

CHW IMPACT STORY – Speaking prompts

As a CHW or someone who works closely with CHWs, we know how important it is to continue bringing public awareness about the value and impact of CHWs in Minnesota. As part of commemorating Minnesota Community Health Worker Day, media/press may be in attendance.

Minnesota Community Health Worker Alliance is encouraging CHWs to take 3-5 minutes to share a story at the Capitol about an individual whose life was positively impacted by your work as a CHW. Here are few talking points for your story:

- **What was the need:** What health conditions and/or barriers did they face?
- **What were your action steps:** What did you do? How did you build trust, advocate, or navigate systems?
- **Impact:** What changed for the individual or family after working with you?
- **Reflection:** As a CHW, why is this story important, and what does it say about the value of CHWs?

We look forward to celebrating this historic milestone with you! If you have any questions about the event, please contact Vonyee@MnCHWalliance.org
